Allowable Subject Matter

Claims 1-7 and 10-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The positive recitation in the independent claims 20 and 21 of the combination of elements wherein "the guide element being *immovably* secured to the sliding board" and the "anchoring elements being *immovably* integrated into and held in the foam of the core *exclusively* by foaming of the core and hardening of the foam" are not found in the prior art of record. Examiner is accepting applicant's arguments of the term "immovably" as being unable to be removed from the board without destroying the board. Examiner also notes that the accepted definition of immovably is "incapable of being moved; *broadly* : not moving or not intended to be moved", which defines over the prior art fastening elements which are comprised of threaded elements capable of being removed from the sliding board.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vaughn T. Coolman whose telephone number is (571) 272-6014. The examiner can normally be reached on Monday thru Friday, 8am-6pm EST.
